Royal Mail Group Speaker: *Martin Lenaghan*
- 12.40 – 13.40** LUNCH and informal 'networking'
- 13.40 – 14.15** SPF, Sender ID, DNS vulnerabilities & protection
The Open Group Speaker: *Mike Lambert*
- 14.15 – 14.50** Current and Future Techniques and Trends in Messaging Services
Internet based messaging is relied upon more than ever by most organisations. At the same time, profiteering from Internet communications has developed from simple SPAM and VIRUS attacks on individuals to more carefully planned social engineering, "PHISHING" attacks and threats to messaging infrastructure itself. Businesses are now squarely in the sights of these attacks, with financially motivated objectives of fraud, blackmail and industrial espionage. This presentation charts these developments and discusses strategies for protection and control."
Prostini Speaker: *James Dowell, Senior Consultant*
- 14.50 – 15.05** COFFEE/TEA
- 15.05 – 15.40** Managing a Public ISP
Speaker: TBA
