

Helping you get involved in EU-funded projects

Being based in Brussels has helped to establish EEMA as a trusted EU Project Partner. We recently participated in the Cloud for Europe, SSEDIC, STORK and Future ID, and are currently Partners in the EU LIGHTest and FutureTrust projects.

There are lots of opportunities for our members to get involved in new funded EU projects and to help you to do so we are launching our new Consortium Partner Panel.

As an EEMA member you can be a panel member which means you will receive early notifications of proposals for upcoming projects and may have the opportunity to join a Consortium.

EEMA members can apply to join online at:

<https://www.eema.org/consortium-partner-application-form/>

To become an EEMA member visit:

Speak at EEMA events

EEMA organises an extensive programme of events throughout Europe, ranging from seminars, workshops and High-Level Fireside Briefings, as well as the flagship EEMA Annual Conference and ISSE.

We are always looking for high calibre speakers to share their expertise at EEMA conferences and events. If that is you then sign up to our Speaker Panel to

ensure that you are amongst the first to be considered when the EEMA programme committee building a programme.

Membership of the Speaker Panel is free for EEMA by registering online:

To become an EEMA member visit: <https://www.eema.org/membership/membership-application-forms/>

Connect with cyber security professionals at ISSE 2017

On 14th and 15th November, the ISSE conference and exhibition returns to EEMA's home in Belgium. EEMA brings together international experts, offering exceptional networking opportunities with governments, regulators, corporates and innovators. There are plenty of opportunities to participate, either as a delegate, sponsor, or speaker.

For more information about how to get involved visit: www.isse.eu.com

ISSE 2017
14 & 15 November 2017
Hosted by Deloitte

EEMA
30th Anniversary

ISSE The Future of Digital Security and Trust

From the EEMA Chair

We were delighted to welcome so many members to our 30th Annual Conference at Microsoft's head-office in London. The theme for the conference was 'Privacy vs Identity - Opportunity and Challenges' and I am pleased to report that whilst the are undoubtedly challenges that must be overcome, there was an overwhelming sense of optimism expressed in the keynotes and track sessions.

A highlight of the conference was the H2020 stream, where we discovered more about current ongoing EU initiatives, including **ARIES** and **Konfido**, as well as the **FutureTrust** and **LIGHTest** projects that EEMA is actively involved with. I am hugely excited by the prospect of seeing members of our Consortium Partner Panel presenting their involvement in new funded EU projects at future EEMA events.

Thank you to everyone that helped to make EEMA's 30th anniversary conference such a marvellous success, including the many of you that took to Twitter ([@EEMA1](https://twitter.com/EEMA1)) to share your thoughts during the sessions.

Jon Shamah,
EEMA Chair

"It was wonderful and utterly informative to participate in the EEMA anniversary conference 2017. The official program was well balanced, the topics up-to-date, the speakers marvellous and the chats beside where informative to the same extent. I hope that our perfect cooperation in projects will last long. Thank you for the opportunity to speak in front of such a good audience."

Honouring 25 years of EEMA service

Our Vice-Chair, **Stuart McRae**, has been awarded the Lifetime Achievement Award, in recognition of his 25-year contribution and commitment to EEMA. He was presented with the Award at the annual conference and stated: "The amazing thing about EEMA is the people it attracts. It's given me access to experts, as well as knowledge, and the chance to debate with peers in other companies the challenges we face, different ways of addressing issues and the future impact of emerging technologies. EEMA is the best forum I have found for understanding what is going on in the industry, in European Commission funded projects and within Europe more broadly."

European Trust Foundation welcomes two new members

The **E-Forum** and **MEF** (Mobile Ecosystem Forum) are the latest organisation to join the **European Trust Foundation** (ETF). Launched in 2016, the ETF is co-ordinated by EEMA and acts as an independent body, working with governments, corporates, trade-associations, SME bodies and others within and outside the EU, to strengthen digital trust throughout Europe.

E-Forum is a not-for-profit association that brings together interested parties, active in the field of eGovernment in Europe and MEF is a global trade body that acts as an impartial and authoritative champion for addressing issues affecting the broadening mobile ecosystem. They join other ETF members - EEMA, ESI, IDnext, Kantara Initiative, LSEC, Norstella, OpenSignature, PIMN, SSEDIC2020, TDL and Vendorcom.

KnowNow seeks Consortia members for H2020 project

Do you have expertise in security, economics, sociology and legal? If so, KnowNow would like to talk to you about joining its consortium in support of the call: H2020 SwafS-22-2017 for a project submission titled: 'BEERS - Balancing Ethics and Economic interests in Response to the needs of a Secure e-society'.

They are looking for participants (especially SME's) from across the EU, specifically from the Nordics, Spain, France, Benelux and eastern Europe. The submission date is 31st August 2017, so if you would like to get involved please contact:

Chris Cooper at KnowNow | Tel: +44 (0) 7967 275469 | Email: chris.cooper@kn-i.com
